1. Overall Evaluation:

- (i) Leading Areas: The West and East show strong and stable performance.
- (ii) Leading Items: Sales are primarily driven by technology products.
 (iii) Potential Growth: Concentrate efforts on the less successful regions
- such as the South and enhance the Furniture category.
- (iv) Seasonal Trends: Schedule marketing initiatives during the latter half of the year for optimal sales.

2. Sales by State Map:

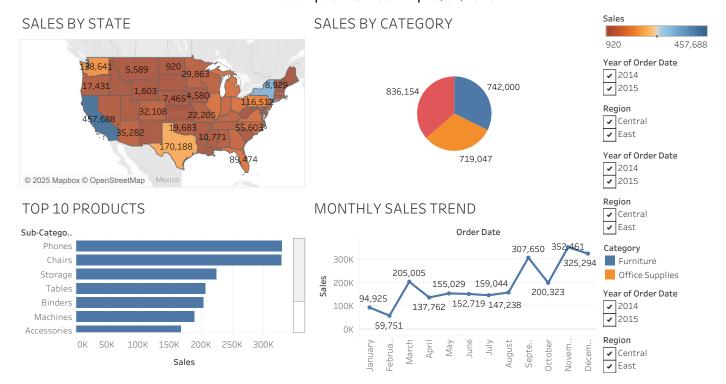

Visualizes sales figures across the United States with a geographic representation. Deeper shades indicate greater sales, facilitating the quick identification of top-performing states.

3. Bar Chart (Top 10 Products): Shows the ten highest-selling products according to total sales. This facilitates the quick identifica..
